

APRAS Release Notes

- Release #:** M07
- Release Date:** Sunday, July 10, 2022
- Comments:** This release is comprised of New Features, Enhancements for Permit Services, and other enhancements and bug fixes.

New Features

- APRAS now includes a Fuel/Rest Pin that can be used to identify stops in a route, such as fuel, rest, stopping at the terminal, etc.

When the Fuel/Rest pin is used, it allows Route Suggestion to enable retuning traveling in both direction on a State Route based on a stop. For example, when traveling across I-80, and you want to stop for fuel at on SR 8 in Barkeyville, using the Fuel/Rest Pin will allow your route to travel South on SR 8 and then return North on SR 8 without requiring review for a U-turn.

Originating Trip

Map Points:
Total State Route Miles: 36.81

OHIO STATE LINE
I-80 (Z H CONFAIR HW) AND OHIO STATE LINE, TR 0080 OH

PA-8 (PITTSBURGH RD) AND KWIKFILL TRUCK PLAZA RD

DONALDSON RD
PA-308 (FRANKLIN ST) AND DONALDSON RD

— CLEAR ROUTE **➤ SUGGEST ROUTE**

1

Enhancements for Permit Services

- Added ability to edit motor carrier information. After selecting a motor carrier, click the pencil icon to edit the carrier's FEIN, US DOT, Name, Address, and Phone Number. For "P" accounts only.

- Corrected an error that was not allowing adding a new carrier without an FEIN or a US DOT number (i.e., a private citizen).

Other Enhancements and Bug Fixes

- Added Document Type PATA805 to the Application Documents tab.
- Corrected an error on the application Map that was not displaying restriction pop-up information.
- Corrected an error on the application Vehicle tab that was not allow 0 to be entered for inches.
- Corrected an error during application copying that was not pulling the correct account information.
