

TRAFFIC
Academy

What

Five (5) – day, in-person training academy, with 18 technical and administrative sessions presented by PennDOT subject matter experts who explain the fundamental goals, plans, skills and resources of people with traffic safety and mobility-related positions in PA.

Why

The Academy broadens participants' understanding of the roles and responsibilities with respect to highway safety and mobility, while also helping them network and build meaningful relationships.

When

Annually, usually in September. Also, three (3) selected sessions are presented as a pre-conference workshop for the Transportation Engineering and Safety Conference, conducted annually in December at State College.

Where

Riverfront Office Complex (ROC), Harrisburg PA

Who

Presently, the Academy is limited to PennDOT staff, and class size is approximately 30 people. Those with direct or indirect responsibilities related to traffic safety and mobility are encouraged to attend, including planners, designers, public relations personnel and others. Consideration is being given to conduct a similar academy for external stakeholders such as municipal staff, planning partners and engineering consultants.
