

# Meeting Summary

Project:	North Fork
Subject:	Public Meeting
Date:	Nov. 22 – Dec. 22, 2021
Location:	Virtual On-Demand Meeting Website, Online In-Person Open House, Jefferson County

## Meeting Overview

The Pennsylvania Department of Transportation (PennDOT) held a public meeting for the I-80 North Fork Bridges Project. The public meeting was held both online (virtually) and in-person. The online meeting was comprised of text, graphics and videos that provided a project overview and explained the project purpose and need, project design, proposed funding, traffic studies, environmental studies, comment process and next steps. The same information was shared during the in-person public meeting in an open house format.

The online meeting website provided a comment form that allowed individuals to submit their comments directly within the virtual public meeting. The website also noted other ways in which comments could be submitted, including the comment form on the general project website, project phone number, project email and a physical mailing address. The virtual public meeting and comment period began at noon on Nov. 22 and ended at 11:59 p.m. on Dec. 22, 2021.

At the in-person public open house, comment forms were provided for individuals to submit their comment. The in-person public open house was held on Wednesday, Dec. 15, 2021, from 4:30 to 7:30 p.m. at Hickory Grove Elementary School in Brookville. In project outreach and on the virtual public meeting website it was noted that participants could request translation services.

While the comment period for the public meeting has closed, the online meeting materials are available for reference via the project website's resource side bar at the link below.

Social Media Posts	20,562 people reached	<ul style="list-style-type: none"> <li>Social media posts on PennDOT social media regarding how to participate in the public meeting and comment period</li> <li>64 engagements across 3 posts</li> </ul>	11/22 12/15 12/20

## Meeting Participation

Statistics regarding public participation in the public meeting are below (*data as of close of comment period on Dec. 22*).

Public Meeting Metrics	
Total Virtual Public Meeting Unique Website Visitors (11/22-12/22)	361
Total In-Person Public Open House Attendees	24
Total Meeting Comments (11/22-12/22)	58

Based on the comments received during the public comment period, 15 percent of individuals who visited the public meeting website or attended an in-person meeting submitted a comment. The project team is evaluating and considering this feedback as the Categorical Exclusion environmental document is completed.

### Common Comment Themes:

- Several commenters indicated their **opposition to tolling**. Reasons included:
  - Existing Turnpike frustration

- Tolls causing traffic issues
- Financial
- Against tolling in rural areas
- Several commenters shared **general dissatisfaction** with the project. Comments indicated was due to:
  - Pennsylvania already pays the highest gas tax
  - Opposition to paying additional fees for road usage
  - Economic hardship
- Several commenters indicated concern for **toll avoidance** or plans to avoid tolls themselves. Comments included:
  - Drivers planning to avoid the bridge if a toll is placed
  - Concern for traffic avoiding the tolls and diverting through local communities
