

# Polyester Polymer Concrete Overlay on Bridge Decks

## PennDOT District 11

### Protecting and Extending Life of Bridge Decks

- Deteriorated decks require costly structural repairs or replacement
- Deck repairs can cause significant impacts to traffic
- Limited bridge maintenance funds

### Utilize PPC Overlays to Preserve Good Decks

- Keep decks from dropping to Fair / Poor Condition
- Can receive traffic after only a few hours
- Form a chemical / structural bond
- 20-to-40-year life expectancy
- HMWM Primer penetrates and seals cracks

### District 11 Benefits from PPC Overlays

- PPC Overlays will maintain D-11 good condition decks
- PPC Overlays will reduce future maintenance and structural repair costs
